TESTIMONIALS

“Tutoring has helped me develop skills in which I can self-reflect. It has taught me to push myself and to believe in myself when I've given up.” - Student

“[My daughter's] math grades have steadily improved to a B+. This small but significant achievement would not have been possible without E.R.E. Thank you for providing these essential services to underrepresented communities who otherwise wouldn't be able to afford tutoring services.” - Parent
